

**REMARKS**

Claims 1-32 are pending in this application and are subject to a restriction and election requirement under 35 U.S.C. §121. The Office Action requires an election of a single invention for prosecution from the originally filed claims as following:

Group I, claims 1-25, inclusive, drawn to a method of forming  
a three-dimensional microstructure on a flat surface of support;  
Group II, claims 26-32, inclusive, drawn to a multilayer sheet.

Applicants provisionally elect Group II, with traverse, which includes claims 26-32, inclusive, drawn to a multilayer sheet.

Applicants reserve the right to file a divisional patent application based on un-elected claims 1-25, inclusive, of Group I, drawn to a method of forming a three-dimensional microstructure on a flat surface of support.

Respectfully submitted,
